PROJECTS

FreeBee
Django Web Application for Technical Queries . The users can ask questions and post answers to any questions . It has upvote system that helps to display the most relevant answers at the top

FLAMES(Mini Project)
FLAMES Game Android Application built using Java and Kotlin in Android Studio . It is a simple game to refresh the memory our school days which kids used to play in their childhood

TechiKart (E-Commerce Platform)
A Web Application in which users can shop for computers , Laptop and its accessories online . It Contained a separate admin section to monitor the order and approve them.

Game Development With Body Gestures
Game developed using JavaScript with no Frameworks. Inputs are given using body gestures through the Mediapipe Library

LEADERSHIP

Team Lead – Once I led a team of four including myself in my Diploma final year for a project . I evenly distributed roles for every team member . Supervised and supported my team members throughout the project . We completed the project before the deadline and got the highest grade for the project in our batch.
